1

What is it?

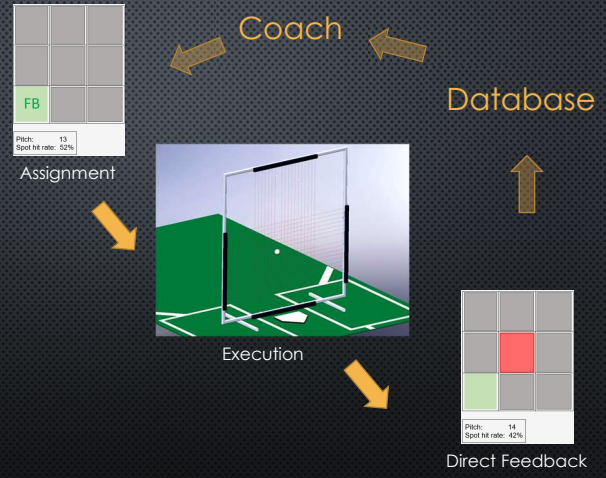

System that trains pitcher in hitting spots by detecting ball in the strikezone

Part of training regime OR Standalone (portable)

Use data in critical game situations

- Non-interfering
- Cheap alternative
- Direct feedback

@BBScienceCentre

2

Current phase:

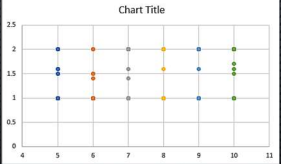

Small prototype testing

Setting	TRU1	Nball	Notetect
5	37	20	20
6	48	20	20
7	60	20	20
8	68	20	20
9	70	20	20
10	75	20	20

- 100/100 Balls detected
- 0.5 cm accuracy

SensorNr(Y-axis) against SpeedSetting (X-axis)

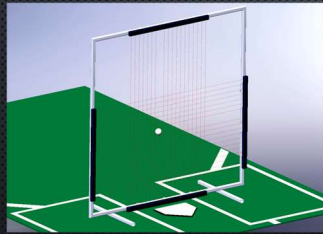

@BBScienceCentre

3

Next phase:

Full scale prototype & production

- Full scale testing
- Improvements
- Looking at production options
